Worldwide / Prices On Request

We are

# Textures in shapes

Natural materials, pure lines and artisanal techniques. Nestor & Rotsen combines a passion for art with craft and enthusiasm. The aim? To design and create inspiring objects & spaces that mirror the beauty of natural imperfection.

Thanks to a passionate love for organic shapes, aesthetic artistry & handmade luxury.

# The natural beauty of organic shapes

Owner Nestor & Rotsen | Art Director, Devi Vervaeke

The story of Nestor & Rotsen began with Devi Vervaeke, whose passion for material development ignited during his formative years. Growing up as the children of an painter and the grandchildren of a skilled furniture craftsman, Devi and his brother Denneb were immersed in a world of creativity from a young age. Despite pursuing different educational paths — Devi as a contemporary classical pianist and composer, and Denneb as a graphic designer — their shared love for materials brought them together after completing their studies. In their quest to explore their artistic roots, the brothers embarked on a journey of material experimentation. Denneb nurtured the growth of their patina workshop, while Devi began sculpting with various materials. It wasn't long before he discovered the captivating allure of ceramics, inspired by the textures, colors, shapes, and organic erosions found in nature. This revelation sparked a vision that soon blossomed into an extraordinary collection, unlike anything seen before — Nestor & Rotsen.

Since those early days, Nestor & Rotsen has evolved into a renowned design studio worldwide and a thriving workshop where their unique creations come to life, together with their strong creative team. The world has taken notice, and their captivating designs have garnered global acclaim.

Today, Nestor & Rotsen stands as a testament to the harmonious marriage of natural materials and innovative techniques. Their exclusive objects embody organic forms and celebrate the beauty of imperfections, paying homage to the perfect balance found in nature's artistry.

# Landskap Tables

The Landskap dining table is a stunning piece that blends colorful tints and authentic craftsmanship, creating a beautiful puzzle of reflections. The harmonious geometric lines create a striking rectangular appearance that generates an unparalleled dynamic. The reflection of the landscape patterns creates an ever-changing display, making it a true work of art.

The table is handcrafted from fire-wrought iron, making it both durable and timeless. Its beauty is ready to be discovered in any countryside setting, adding a touch of sophistication and elegance to any dining room. Choose the Landskap dining table for a one-of-a-kind statement piece that celebrates both form and function.

# Landskap Tables

## “U” base

Introducing our impressive Landskap Table U. This beautiful table is perfect for both indoor and outdoor use, thanks to its galvanized base. The ceramic top with its distinctive N&R pattern is a stunning eye-catcher that will make a bold statement in any setting. Plus, with endless color options available, you can choose the perfect look to match your decor.

But the Landskap Table isn't just beautiful – it's also built to last. The sturdy metal construction, supported by two vertical columns, ensures real stability and comfortable use. And because it's designed to withstand all kinds of weather, you can enjoy your Landskap Table year-round, without worrying about damage.

So whether you're looking for a stylish addition to your home or a durable outdoor table for your patio, the Landskap Table has you covered.

## L (thick top)

Introducing the Landskap Table L - the latest addition to our collection. This table features a thicker ceramic tabletop compared to our traditional Landskap Table. Handcrafted to a thickness of 4cm to 10cm, it has a more durable and robust appearance. Additionally, upon request, the height of the edge of the ceramic surface can be increased for added functionality and style. Choose the Landskap Table L for a statement piece that seamlessly blends form and function.

# Scena Tables

## Classic 1. Base

Its rhythmic patterns give the Scena table a strong but quiet elegance. Influenced by mathematical models and especially the beauty of craftsmanship by hand and imperfection, it results in a colourful and changing display that is never dull or simple. The wilful colour palette and unique ceramic shapes are as indefinable and contradictory as nature scenes.

# Scena Tables

Classic 2. Base

# Scena Tables

## “N” base

The 'Scena 'N' is a combination of the Landskap and the Franklin Tables. The base of this table is made from our Neststone finish and seamlessly transitions into the ceramic top. The typical N&R pattern in this table consists of large handmade ceramic surfaces. The size, colors, and patterns of the table can be fully customized to your preferences.

# Floss Coffee table

Introduce a touch of bold, artistic flair to your living space with the Floss coffee table. The table's striking design is created through a seemingly uncontrolled projection of vibrant colors, making it a true statement piece. Despite its bold appearance, The Floss table is also incredibly functional and practical, featuring spacious drawers that open smoothly along both sides.

# Floss Coffee table

The table/cabinet is made from a selection of handmade ceramic pieces, ensuring that each one is truly unique. The Floss coffee table is also available as a hanging or standing sideboard element, providing even more versatility for your home decor. Add a touch of elegance and stubbornness to your home with the Floss coffee table.

# Gatsby Tables

# Gatsby Tables

Nestor & Rosten is inspired by natural landscapes of all types. The Gatsby Tables are inspired by the perfect geometric crop circles, often complex but perfectly geometric patterns, at the same time these tables have a 1920s feel, the art deco period. The mirror effect in the pattern of the tables is so refined that there is a blissful calm radiating from it despite its striking appearance. Just like the other Nestor & Rosten tables, a personalized base can also be designed for the Gatsby Table.

Introducing the 'Shelby' – where exceptional design and masterful craftsmanship converge, a true masterpiece brought to life by Nestor & Rosten. Paying homage to the renowned and influential vintage and race car designer Carroll Shelby, this extraordinary creation embodies power, sophistication, and timeless beauty.

Prepare to be captivated by the 'Shelby' cabinet, a harmonious blend of bold presence and graceful curves. Its meticulously handcrafted ceramic surfaces are a testament to artistry and ingenuity, pushing the boundaries of what is possible. The imposing feet, crafted from a single piece of ceramic, exude opulence, available in your choice of luxurious gold or striking copper.

Every detail has been carefully considered, leaving no aspect to chance. The 'Shelby' cabinet is enveloped entirely in ceramic, including its bottom and back, allowing it to take center stage in any space. Step inside, and you'll discover a meticulously finished interior adorned with lustrous brass accents, though options of copper or veneer are also available, tailored to your preferences.

Versatility meets elegance, as the 'Shelby' comes in a range of sizes to suit your specific needs. The possibilities for personalization are endless, with a myriad of glazed colors to choose from. Whether it graces your living room, study, or gallery, the 'Shelby' commands attention and embodies the essence of refined luxury.

Experience the pinnacle of design excellence with the 'Shelby' – a testament to Nestor & Rosten's unwavering commitment to creating exceptional pieces that redefine the boundaries of art and functionality. Elevate your space with the 'Shelby' and indulge in a symphony of beauty and craftsmanship that will leave admirers in awe.

# Linea Floor

## Floor

Barren, colorful and unpredictable. The surprising line play and natural shine of ceramics make the 'Linea Floor' a sideboard without previous. The invisible base in high-grade wood is finished with a multitude of geometric shapes and color shades. Apparent imperfections emphasize the craft ceramics and show the hand of the maker. The handleless cabinet opens its secrets with a finger tip. Grid combines artisan mastery with advanced comfort in a timeless eye-catcher.

# TV & Fireplace cabinet

This functional object is a real eye-catcher and serves as a fireplace and TV cabinet that is centrally positioned between two spaces, the dining area and the reading corner & TV area. N&R has a penchant for extravagant and unexpected lines. Geometric and organic patterns intersect in this cabinet in complete harmony. N&R studio is known for its exceptionally handmade ceramics, glass textures and feathered patinas, with pronounced subtle colour shades, in this cabinet they all come together. The coloured glass with a soft texture provides a view from one room to another, and behind the ceramic surfaces are hidden storage cupboards, combined with open niches. On the left the cosy warm fireplace, on the right the TV.

# Kitchen project

In this stunning villa, we had the opportunity to design and create a completely new kitchen, with carte blanche from our client, we were able to unleash our creativity. We opted for a unique ceramic pattern, art deco inspired, colorful with a Mediterranean touch, forming the common thread throughout the kitchen concept. The backsplash mirrors the ceramic top of the island and is fitted with an integrated hood over the induction cooktop. The cabinets are finished with a natural jute technique that is slightly patinated and distressed. The bright brass accents and intricate detailing make this kitchen a truly unique and classy functional space.

# Kitchen project

During the renovation of a historic mansion in the Belgian city of Ghent, a spacious top floor space was completely refurbished. The owner wanted to give the space a visibly unique twist and therefore opted for an N&R made-to-measure kitchen in a bold color palette.

The handmade ceramic was combined with an interior finish in precious acacia wood and weathered copper elements that recur in the curb, sink and faucet. By using refractory ceramics, the cooking burners could be integrated directly into the kitchen countertop.

N&R

# Kitchen project

In this beautiful new home, we created a kitchen concept where organic and geometric patterns and lines come together perfectly. The island top is made of large ceramic surfaces in deep blue and earth tones. The sink was also custom made by Studio N&R in brass. The organic pedestal is made of our 'Neststone' with brass plinth. The walls were finished in clay and the work tablet in our 'Gloss Neststone', so everything forms a subtle unique whole.

N&R

by N&R

# Kitchen project

All facets of N&R come together in this Bruges villa. In this kitchen concept we have chosen on the cabinets for a soft texture technique made by old Jute from the farmers, combined with pronounced glaze shades, the work tablet was made in a personalized Terrazzo, a specific N&R mixture of gemstone granulates. The oval Franklin with the Plato light objects complete the kitchen concept, the cabinets are finished in fumed oak..

# Kitchen project

## Transforming authentic wood table into kitchen island

In this beautiful rural farmhouse near Sint Martens Latem, we transformed an old long table into a more functional piece without losing its authentic character. The built-in cupboards, dining surfaces, and integrated washbasin are all expertly crafted from our handmade ceramics and finished with soft earthy glazes

N&R

N&R

# Kitchen project

## Total renovation Knokke-Zoute

In this exclusive project located in the famous 'Zoute' - 'Knokke' town on the Belgian coast, we were given the opportunity to conceive and execute the entire concept, which allowed us to seamlessly integrate our Nestor & Rosten artisanal furniture collection into a decor that fully expresses our brand. The minimalist yet visually appealing kitchen concept, made of our handmade ceramics, serves as the functional focal point of the room. Our Franklin Table, with its organic undulations and natural aesthetic, provides a sense of tranquility. The Slayd boxes above the kitchen counter and the ceramic Plato lighting further enhance the overall N&R signature touch to the space."

# Kitchen project

# Kitchen project

## Kitchen & wall concept

In the office house of the renowned Belgian architect Bernard Declerck, we were tasked with designing an artistic artisanal wall. The wall, which serves as the heart of this creative office, features geometrical handmade ceramic surfaces that are fully customized and arranged in a playful manner around the small central plane.

Inspired by nature, we have chosen an intense Mediterranean color palette that adds a vibrant and unique touch to the space. The result is a wall that not only adds visual interest but also reflects the creativity of the office and its inhabitants. Upgrade your office space with a N&R custom-made artisanal wall.

# Shop Counter

In this renowned Haute couture women's boutique 'Grenelle', we were given the opportunity to design and craft the reception desk. Taking inspiration from our 'Grid Cabinet', we incorporated our signature geometric N&R patterns which create a perfect harmony with the subtle bronze glazes. This impressive desk is over 5m long

# Kitchen project

In the heart of Ghent, we had the opportunity to design and create an N&R kitchen concept in this beautiful penthouse. We chose a minimalist style with clean lines, emphasized by the geometric patterns of the custom-made ceramic countertop. The soft, bright blue glaze creates a peaceful oasis, combined with the dark veneer of the cabinet doors

# Bar alcove

Our niches are there to be cherished, with our typical geometric patterns in beautiful glazed colours, we bring a real eye-catcher to your home. We accentuate the beauty by connecting different matching materials with each other, such as coloured transparent glass that serve as shelves. To illuminate the whole, we opt for an original illumination by allowing some ceramic surfaces to stand out with LED lighting on the back of the surface. The light lines provide an additional conceptual dimension and illuminate the entire niche.

N & R

# Kitchen project

## Restyling

We had the opportunity to restyle the kitchen in this beautiful authentic farmhouse, a complete metamorphosis. We reworked the existing kitchen cabinets with fresh green metal patinas, the walls are finished with our Neststone that has a light structure in soft apple-green, in contrast to the pronounced orange for the splashback, which forms a powerful artistic counterweight.

# Work in progress

This functional object is a real eye-catcher and serves as a fireplace and TV cabinet that is centrally positioned between two spaces, the dining area and the reading corner & TV area. N&R has a penchant for extravagant and unexpected lines. Geometric and organic patterns intersect in this cabinet in complete harmony. N&R studio is known for its exceptionally handmade ceramics, glass textures and feathered patinas, with pronounced subtle colour shades, in this cabinet they all come together. The coloured glass with a soft texture provides a view from one room to another, and behind the ceramic surfaces are hidden storage cupboards, combined with open niches. On the left the cosy warm fireplace, on the right the TV.

**Important**

Shape, texture and color variation are  
inherent characteristics of handcrafted  
pieces. The unique beauty of your N&R  
object is enhanced by such variation  
and cannot be a ground for complaint.
