We are

Textures in shapes

Natural materials, pure lines and artisanal techniques. Nestor & Rotsen combines a passion for art with craft and enthusiasm. The aim? To design and create inspiring objects & spaces that mirror the beauty of natural imperfection. Thanks to a passionate love for organic shapes, aesthetic artistry & handmade luxury.

The natural beauty of organic shapes

Story

Owner Nestor & Rotsen | Art Director, Devi Vervaeke

The story of Nestor & Rotsen began with Devi Vervaeke, whose passion for material development ignited during his formative years. Growing up as the children of an painter and the grandchildren of a skilled furniture craftsman,

Devi and his brother Denneb were immersed in a world of creativity from a young age. Despite pursuing different educational paths — Devi as a contemporary classical pianist and composer, and Denneb as a graphic designer — their shared love for materials brought them together after completing their studies. In their quest to explore their artistic roots, the brothers embarked on a journey of material experimentation. Denneb nurtured the growth of their patina workshop, while Devi began sculpting with various materials. It wasn't long before he discovered the captivating allure of ceramics, inspired by the textures, colors, shapes, and organic erosions found in nature. This revelation sparked a vision that soon blossomed into an extraordinary collection, unlike anything seen before — Nestor & Rotsen.

The natural beauty of organic shapes

Since those early days, Nestor & Rotsen has evolved into a renowned design studio worldwide and a thriving workshop where their unique creations come to life, together with their strong creative team.

The world has taken notice, and their captivating designs have garnered global acclaim.

Today, Nestor & Rotsen stands as a testament to the harmonious marriage of natural materials and innovative techniques. Their exclusive objects embody organic forms and celebrate the beauty of imperfections, paying homage to the perfect balance found in nature's artistry.

Shelby Sheen Cabinet

We are proud to introduce the latest addition to the Shelby collection: the 'Shelby Sheen'. This masterpiece, entirely handcrafted, is sculpted from a single piece and finished with naturally glazed lacquer. While the first Shelby models were crafted from various ceramic panels, the 'Shelby Sheen' is a seamless whole, contributing to a renewed, flowing aesthetic.

The 'Shelby Sheen' shines in its simplicity and elegance. The special glazed lacquer can be finished in an infinite range of colors and gradients, making each version a unique expression of style and refinement. With its flowing forms and innovative production process, this new creation embodies a fusion of artisanal tradition and modern sophistication.

Grid

Dressoir

Barren, colorful and unpredictable. The surprising line play and natural shine of ceramics make Grid a sideboard without previous. The invisible base in high-grade wood is finished with a multitude of geometric shapes and color shades. Apparent imperfections emphasize the craft ceramics and show the hand of the maker. The handleless cabinet opens its secrets with a finger tip. Grid combines artisan mastery with advanced comfort in a timeless eye-catcher.

Linea

hanging cabinet

A seemingly uncontrolled projection of colours. The Linea cabinet proves that stubbornness can go hand in hand with elegance. A selection of handmade ceramic pieces form an unexpected unity whereby design is united with functionality. The intense colours hide spacious drawers that open softly along both lengths. Linea is also available as a standing sideboard-element.

Floss Coffee table

Introduce a touch of bold, artistic flair to your living space with the Floss coffee table. The table's striking design is created through a seemingly uncontrolled projection of vibrant colors, making it a true statement piece. Despite its bold appearance, The Floss table is also incredibly functional and practical, featuring spacious drawers that open smoothly along both sides.

Colin L Dome

With Led & bulb

The 'Collin' & 'Collin D' are light sculptures made of 'Neststone' (natural plaster), which were developed in the N&R workshop. The Collin's have a very calm natural look, the eroded effect reflecting the erosion of rocks, from which N&R draws much inspiration.
