We are

Textures in shapes

Natural textures, sculptural forms and material expression.

At Nestor & Rotsen, every collection begins with a fascination for surface, depth and tactility.

Through craftsmanship, experimentation and an intuitive design process, we create objects where texture becomes an integral part of form.

Each piece reflects an ongoing exploration of composition, imperfection and material character — balancing artistic expression with contemporary design.

Designed in Belgium.

Crafted through intuition, process and material expression.

Behind the collection

The Shelby Collection reflects a shared pursuit of texture, form and material expression.

Founded by Devi Vervaeke, Nestor & Rotsen creates collectible furniture and interior objects where craftsmanship, innovation and sculptural design converge.

Together with Barbara Deriemaeker, who holds a Master's degree in the Arts from the Sint-Lucas School of Arts in Ghent, and Denneb Vervaeke, founder of Atelier Nest, each collection evolves through experimentation, material research and close collaboration.

From concept to production, every piece combines artistic sensitivity, technical expertise and artisanal craftsmanship.

Rooted in Belgium, the collection celebrates authenticity, material exploration and timeless design.

Crafted through collaboration, craftsmanship and curiosity.

Design through making

Every collection begins with exploration.

Ideas are tested, materials are refined and prototypes evolve through a continuous dialogue between material, craftsmanship and form.

Each Shelby piece develops through making, collaboration and countless refinements before reaching its final expression.

In a different light

Shelby is conceived as a sculptural presence, shaped by proportion, material and light.

Indoors or out, its soft geometry and hand-finished Ceramiro surfaces respond naturally to their surroundings — changing subtly with every shift of light.

Many rounded forms meet textures, reflection and material depth.

Every detail is carefully considered, crafted to be as beautiful on the inside as it is on the outside.

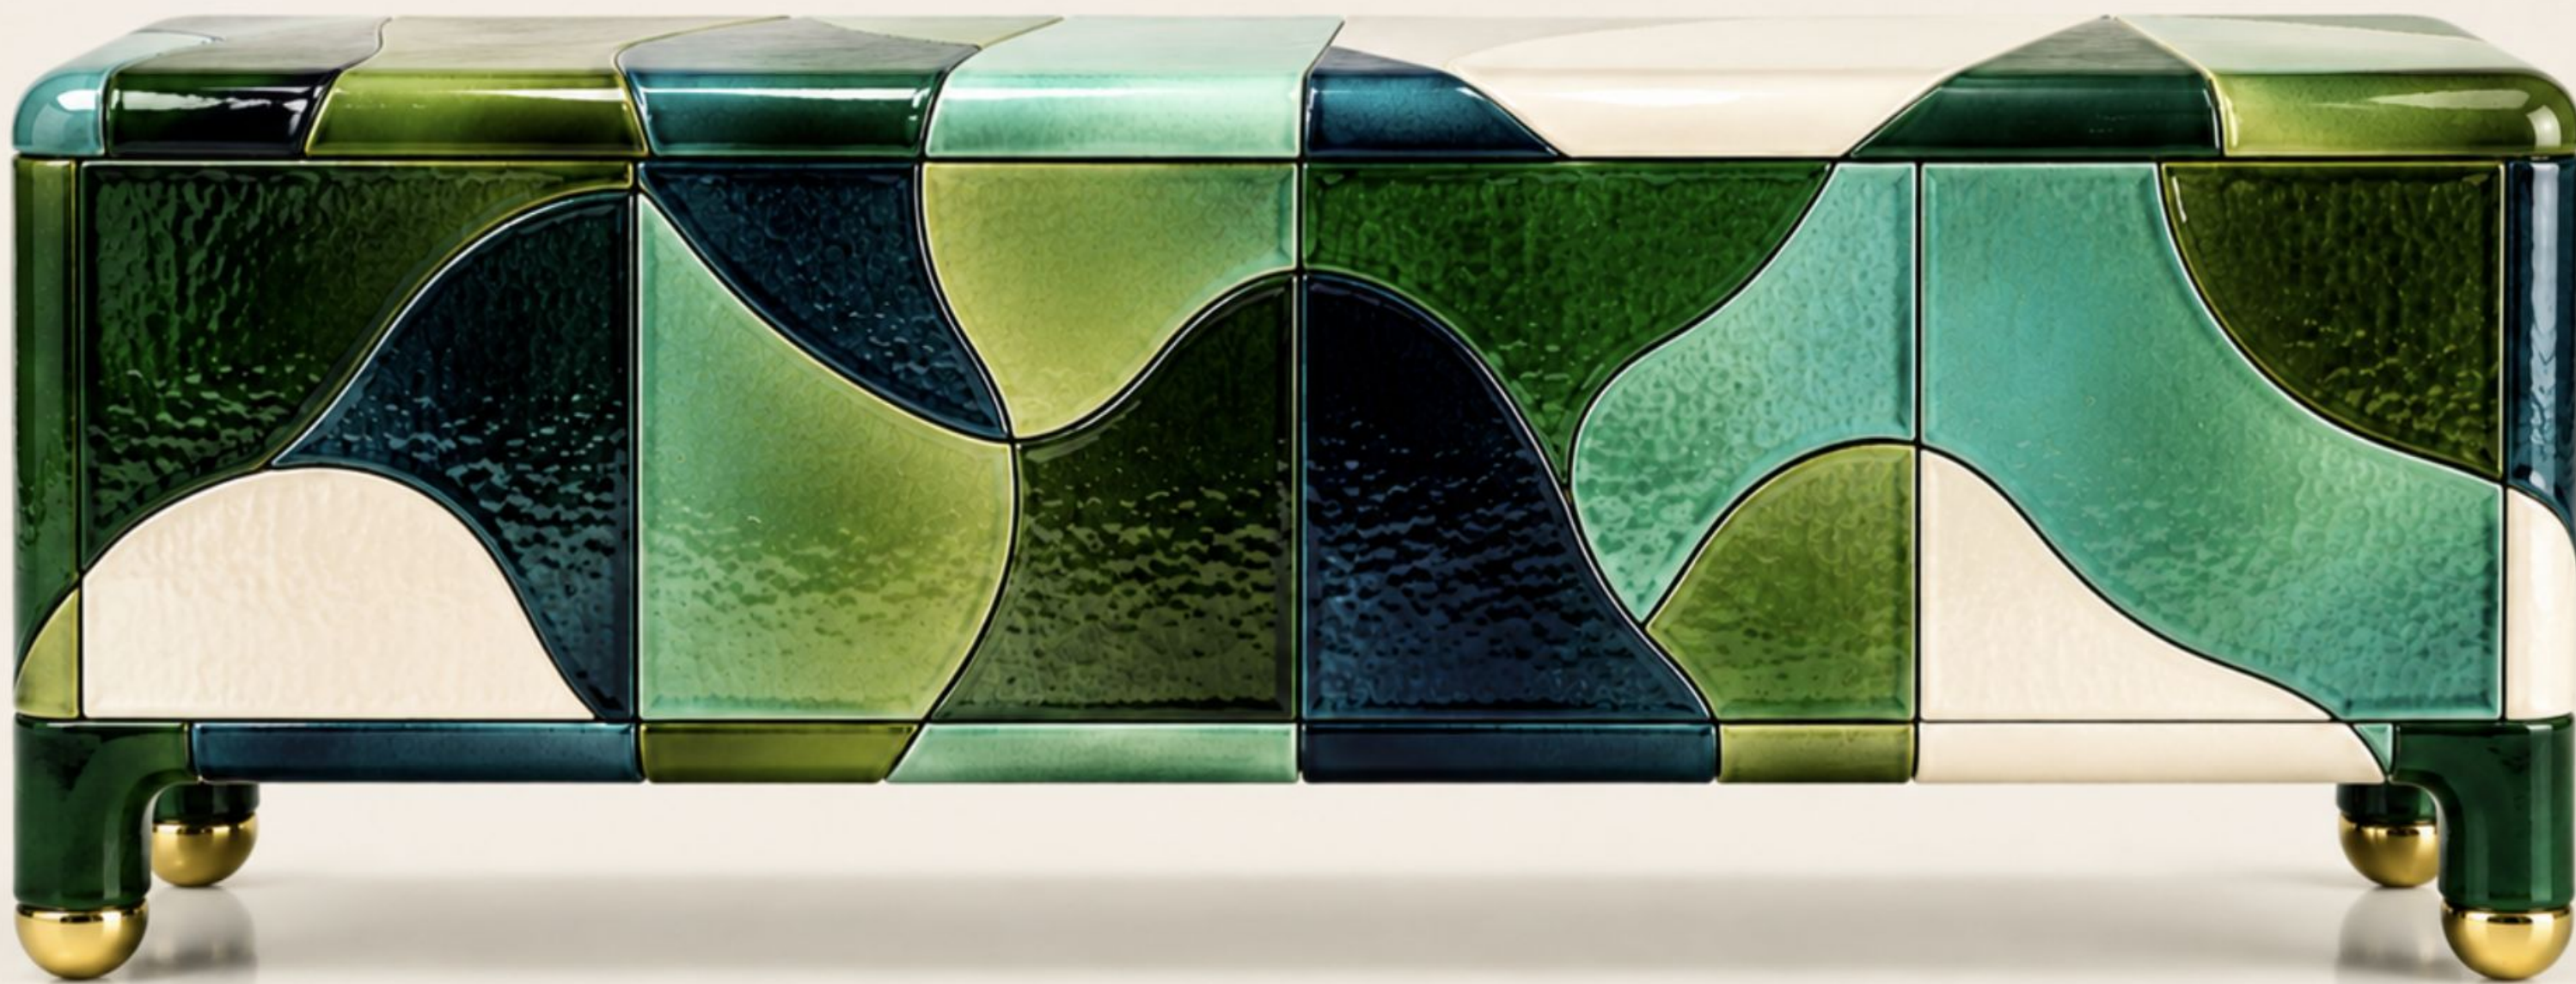

Small in scale Distinctly Shelby

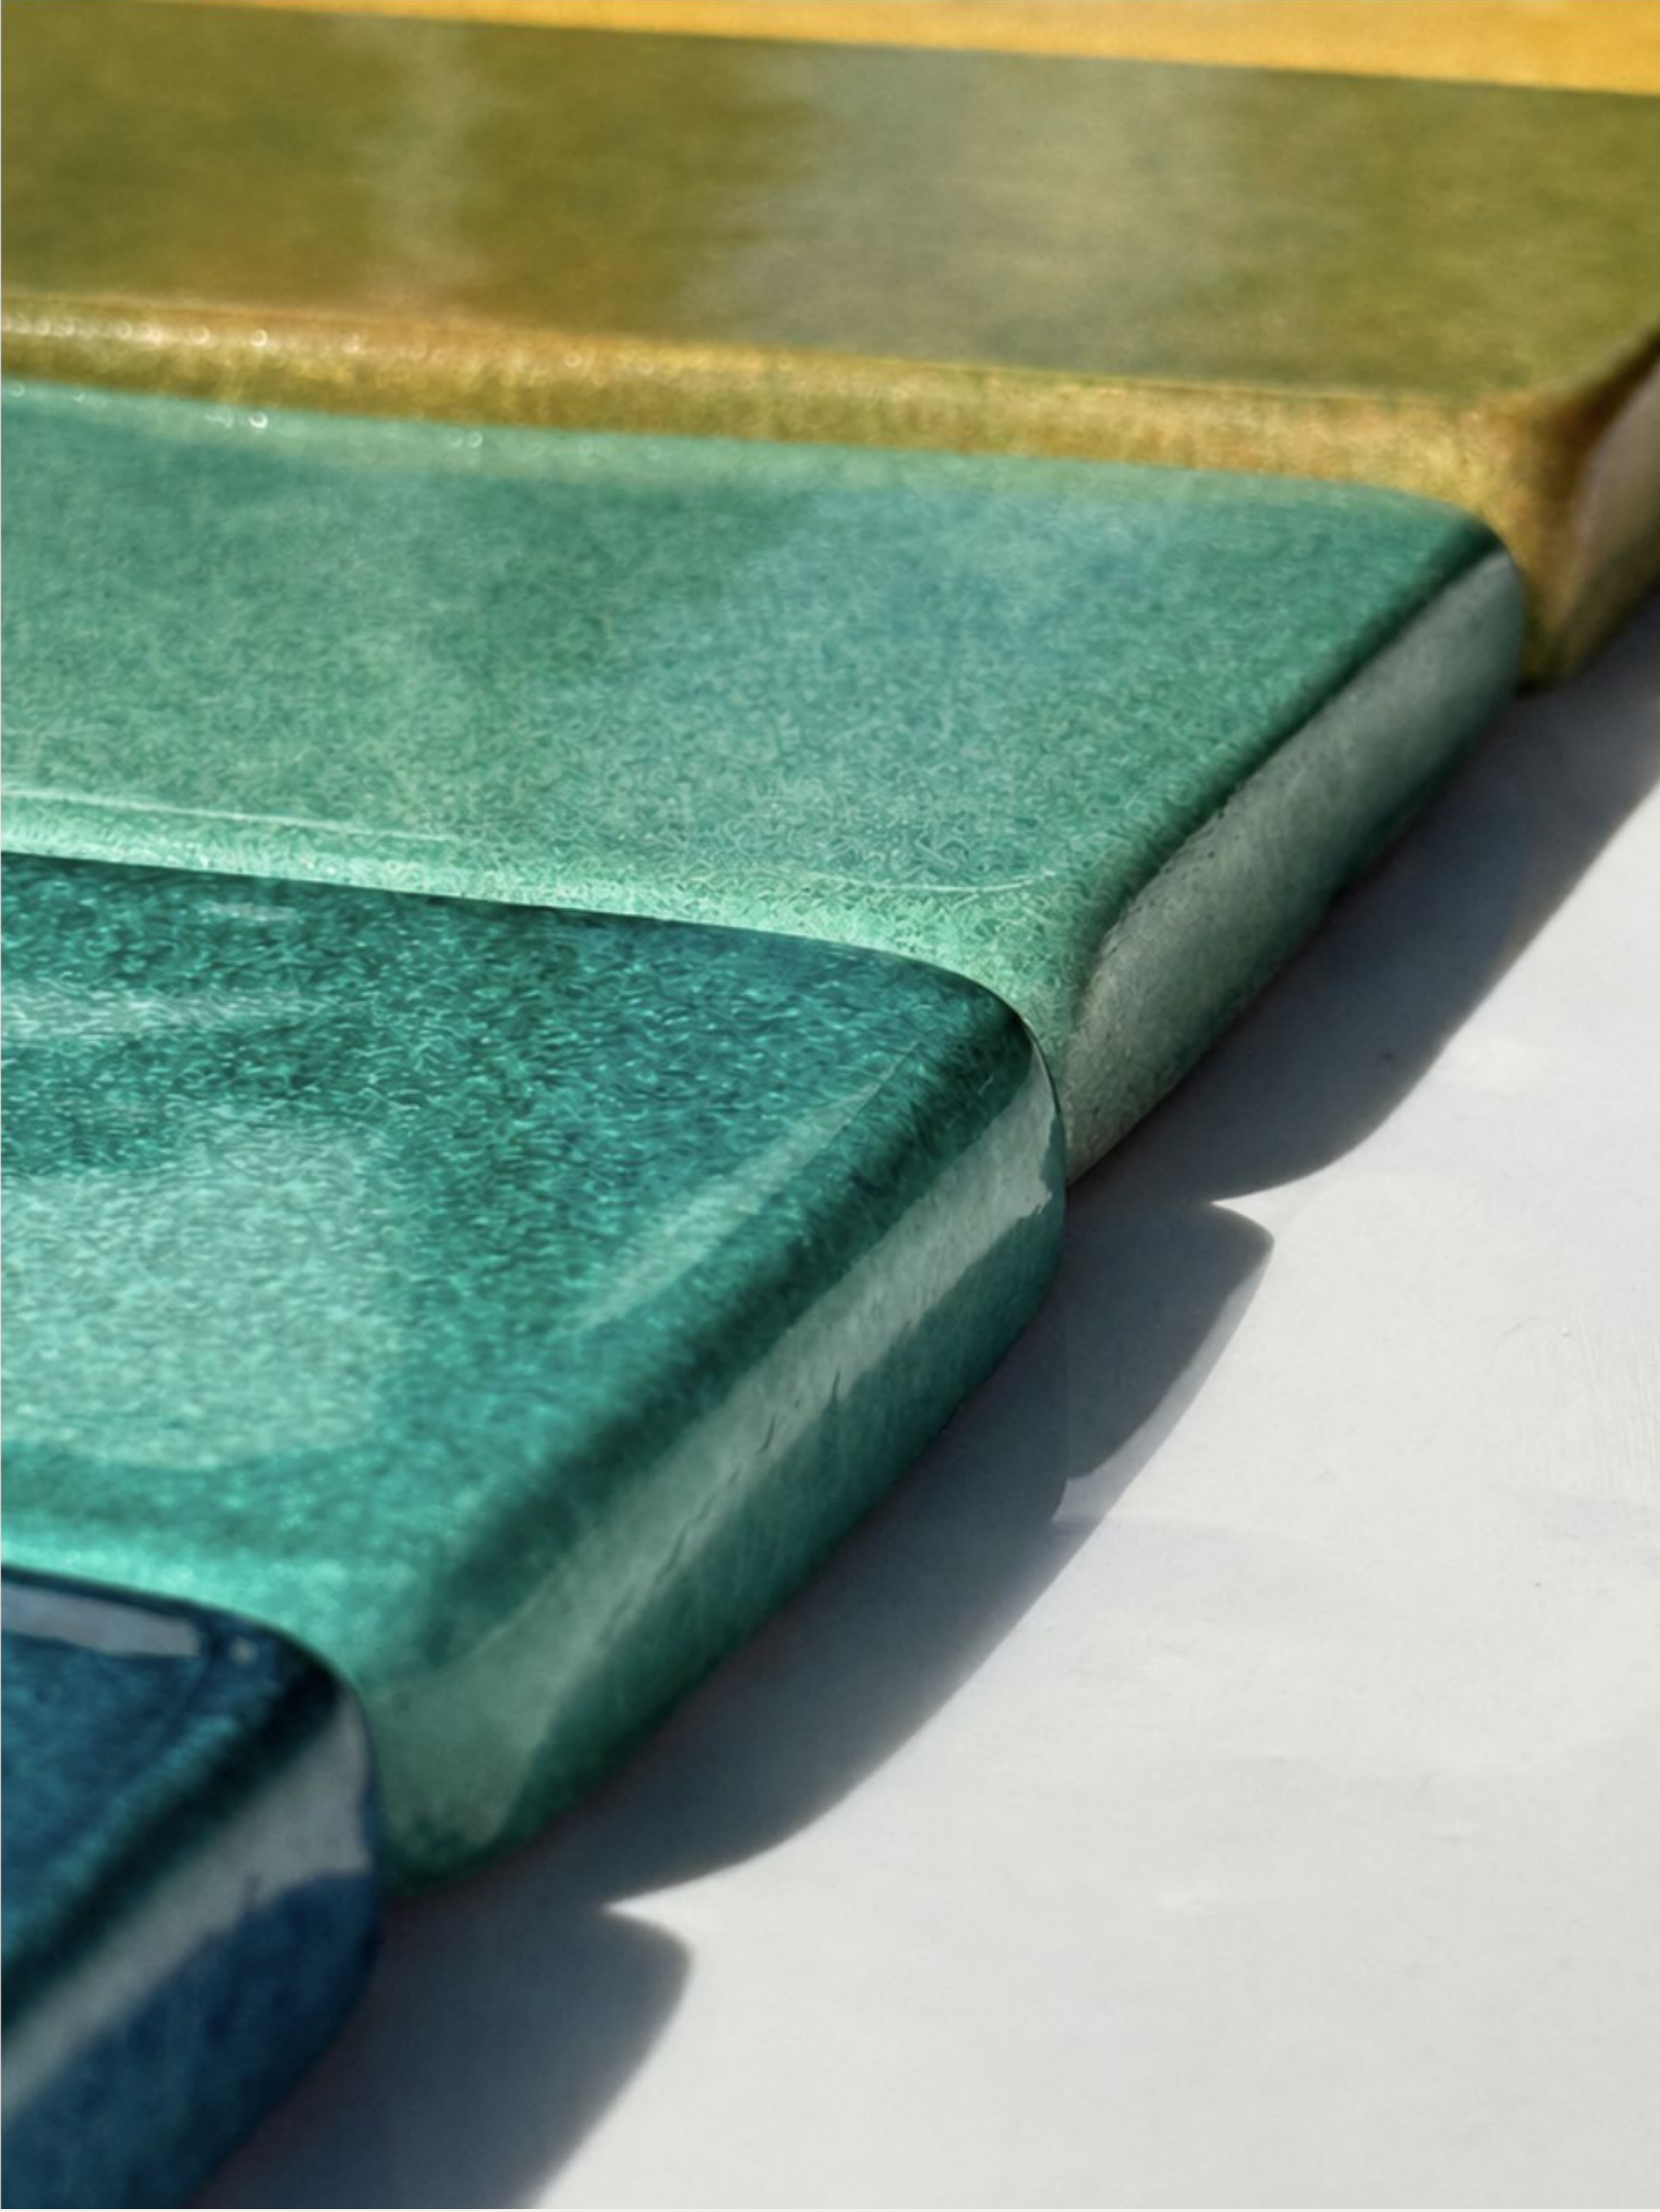

These two compact cabinets translate the Shelby design language into a more intimate proportion. Hand-finished Ceramiro, softly rounded forms and carefully crafted interiors give each piece its own character — small in scale, yet unmistakably sculptural.

Shelby Floor High

Designed as a freestanding architectural piece, Shelby Floor High combines handcrafted Ceramiro surfaces with generous proportions and refined detailing. Every composition is carefully finished by hand, celebrating the beauty of material, craftsmanship and timeless design.

Crafted in every detail

Every edge, radius and junction is carefully considered.

The handcrafted Ceramiro surface follows the soft geometry of Shelby, revealing subtle variations in glaze, texture and reflection.

Details that give each piece its individual character.

Light reveals the material

Behind its sculptural appearance, Shelby Floor High offers generous storage for everyday living. As natural light moves across the handcrafted Ceramiro Glaze Patina, subtle variations in texture, colour and reflection continuously reveal new layers of depth and character.

Interior finishes

Available in brushed brass, brushed copper, brushed nickel, dark brown oak veneer and natural oak veneer. Each finish is carefully selected to create a harmonious dialogue with the handcrafted Ceramiro exterior.

Handcrafted Ceramiro glazes in a palette of luminous, nature-led tones.

From inky blue and mineral green to soft turquoise, warm amber and pale celadon, each glaze reveals subtle depth, movement and a rich glossy character.

Slight variations from piece to piece celebrate the beauty of the handmade.

Finishing Touch

The Shelby Dinner Table can be personalised down to the smallest detail. Its signature rounded feet are available in three metal finishes — Gold, Copper and Nickel — allowing each composition to take on its own character.

Special edition

The Shelby Special Edition is an exploration of colour, rhythm and composition. Free from a predefined palette or fixed pattern, each piece evolves intuitively through the interplay of handcrafted Ceramiro surfaces, colour and form.

No composition is repeated. Subtle variations in glaze, texture and tone become part of its identity, making every Special Edition inherently individual and impossible to reproduce exactly.

Like every Shelby, each piece is handcrafted in our atelier and accompanied by its individual Certificate of Authenticity.

Ceramiro

A new material language, developed in-house.

Ceramiro is Nestor & Rotsen's proprietary material innovation—developed entirely in-house to bring colour, texture and sculptural form together.

Created through years of experimentation, Ceramiro combines artisanal craftsmanship with the precision and creative freedom required for contemporary design.

Developed for both flat and complex curved forms, each surface is composed, shaped and finished within our own atelier, allowing complete control over colour, texture and material character.

More than a finish, Ceramiro is a versatile design medium—applied to furniture, interiors, objects and architectural compositions.

From subtle tonal nuances to expressive reflective textures, every piece captures light, depth and movement in a unique way.

Designed in Belgium.

Crafted for international spaces.

Developed to endure.
